Re: Pro Video Audio Productions Job Performance

To whom it may concern,

This letter is written to express our complete satisfaction with the services provided by Pro Video-Audio Productions at the 2011 Kentucky Derby Festival events.

The services of Pro Video Audio Productions were conducted in a professional manor, within predetermined time constraints, and for a reasonable fee. Danny Davis and his Staff were dependable and pleasant to work with, providing great communication and follow-up.

The 2011 Derby Festival proved to be a unique Festival considering special weather challenges, and Pro Video Audio Productions stepped up to the challenge by providing quality service while adjusting to our evolving needs.

The Derby Festival is successful because of dedicated people and businesses that give their talent and energy to our endeavors. Pro Video Audio Productions is one of those businesses.

I highly recommend Pro Video Audio Productions to other organizations that are considering working with them.

Sincerely,

Dear Danny,

Please accept our thanks for such a thoroughly professional video and audio production with the Lexington Philharmonic and Cirque de la Symphonie for the 2010 Picnic with the Pops event at the Keeneland Meadow on August 21. The record-setting crowd was treated to an extraordinary mixture of sight and sound, enhanced to perfection through your expert handling of technical considerations. To engineer such a high level of audio and video quality for an event being held for the very first time at a custom-constructed venue is a testimony to the innovative skills and dedication to excellence exemplified by your most capable staff and crew.

Cirque de la Symphonie performs with dozens of symphony orchestras in a wide array of venues across North America, and our experience with Pro Video Audio Productions stands out as a very special collaboration with a most qualified and proficient production company.

All the best,

William H. Allen
Executive Director & CEO, CDLS

The National Park Service would like to express our sincere appreciation for the tremendous support and spirit of teamwork provided by your organization and staff during the Grand Opening Celebration at the Tuskegee Airmen National historic Site in Tuskegee Alabama.

You and your staff were extremely supportive and an important part of the team that made this event so successful. Your willingness to be flexible and meet the needs of other activities that were going to occur on stage that we found out about late in the planning process was outstanding. Several times after the contract was awarded you were willing to add the use of additional equipment such as the keyboard for the choir, additional microphones for both the choir and swing band and adjustment of the press riser. Your support and performance was one of the key ingredients to the success of the ribbon cutting ceremony in Tuskegee.

It has been an honor to work with such dedicated professionals and I hope to have the opportunity to work with you again.

Sincerely,

Gordon Wissinger

I am sending you this formal thank you letter, but I just wanted to write back and tell you how impressed we all were with you and the crew from Pro Video Audio. You delivered far more than was expected or even hoped for and far exceeded our expectations. We just got our review from the Harley Owners Group and Harley Davidson and they were blown away by the rally weekend especially in regard to the Thursday night party. Our regional H.O.G. coordinator, ask for your contact information, I gave him your card and told him to check out your web site. Above everything else I really appreciate your understanding of the process and how you made everything about the production “ Turn Key “ It allowed me to focus on the guest and party not equipment and staging. You guys are AWESOME! For any and all future events we won't look any further than Pro Video Audio.

“ After a long search for just the right Production Company for all our technical needs—broadcast-worthy sound, lighting, and staging, we found Pro Video Audio Productions right here in our own backyard. How very fortunate for us and our audience!

The Masters Musicians Festival is a multi-genre, with each act being in broad contrast to the one preceding. Danny Davis and his crew provide a seamless transition between these acts, using side-by-side stages, mastering a challenging situation with a ready smile and a willingness to please that are indeed rare to the industry.”

The special forces Association (SFA) wishes to thank you for the Excellent service you provided for us during our benefit festival.

Your crew arrived ahead of schedule and ready to perform. It was an absolute pleasure to work with them and the quality of sound and service was commented on by the performers as well as the spectators.

The onsite manager Rick was a true professional in all aspects ensuring the best quality of sound for everyone as well as timely and efficient rigging and breakdown of the stage and sound equipment. Thank you again for providing us with such an excellent crew and for going above and beyond our expectations of service.

We look forward to working with you for all our future needs for the events we sponsor. Thanks again for providing such an excellent service.

“ When searching for a production company to accommodate the necessary needs in such a delicate venue such as ours, Pro Video Audio Productions came to the rescue. Their professional demeanor and understanding of what was needed to undertake a task of protecting our ball field was what sold us on them. Danny and his crew went beyond what was ask of them and that is why they remain at the top of our list to continue producing our events. We have and will continue to recommend them to anyone needing their services.”

“ The Black Gold Festival is extremely well pleased with the working relationship that we have created with Pro Video Audio Productions over the last several years. We have a unique situation at our festival in that we sometimes have three stages going at the same time and that has never been a problem. Pro Video Audio has always been a great advocate for the festival when working with our national entertainers. They work with the road and stage managers to adapt the production requirements to our venue that in essence will save us money and time but still allows us to put on a fabulous show for our attendees. We highly recommend their services and look forward to working with them for many years to come.”

“On behalf of the World Chicken Festival I want to “egg-spress” my sincere thanks to you and your Pro Video Audio Productions crew for the “egg-ceptional” efforts that you put forth each year during our event. We believe that we stage one of the premiere events in Kentucky and your service, equipment and professional attitude over the past eleven years have been a tremendous asset to our festival. In addition to providing outstanding sound, staging, lighting and video production, we especially appreciate the cooperation, kindness and extra efforts that make working with you and your staff a pleasure. We look forward to seeing you again at the 13th. Annual World Chicken Festival in Downtown London.”

Thank you so much for all the professionalism and assistance in making our festival a huge success. If I knew you guys were going to be this good, I wouldn't have been so stressed the last few weeks. All of the staff is talking about how great you and your guys were to work with, Almost un real. Again, thank you for everything and if you ever need a reference of any kind please let me know. Good luck and hope to see you soon.

We came their community to present an award to a student from on of their local schools who entered one of our contest. The production staff of Pro Video Audio Productions did a wonderful job of supplying all the equipment for our needs. We greatly appreciate their professionalism and concern for the outcome of our presentation. We look forward to any opportunities of working with them again in the future.

When looking for a company to produce our opening ceremonies in Campbellsville, Kentucky featuring many political delegates from the US and Canada, I was informed to contact Pro Video Audio Productions in Monticello, Kentucky. They did a wonderful job in helping make our ceremony a huge success. We where very impressed with the image they portrayed and highly recommend them to anyone needing their services."

This is the second time that I hired Pro-Video Audio Productions for an important industry function that I needed to go smoothly. It went the way all productions should go, professionally without a hitch. Not only did Danny and his crew do exactly what they promised but they went way beyond the call of duty. I will hire them every time I have the opportunity or the need for a quality production with no drama.

Recently, my band and I had the pleasure to work with Your Company. I just wanted to take a moment to offer my sincere thanks for such a professional service. Like most artist I sometimes find myself so busy with my hectic tour schedule that I take many things for granted. It is always a pleasure to work with great people. The courtesy and efforts taken for my needs to perform were so great that I just had to respond with this letter. Whatever practice you are teaching there is sure to keep your company on top. Please pass along my sincere appreciation to your staff. I thank you and I hope we can work together again real soon.
