look. We can provide the fixtures and supporting equipment to successfully build each unique concept in any unique situation.

A growing trend to the visual aspect of concerts is the use of video in the design scheme of the show. LED displays and video projection are being used for more than just imag. They are being used to expand the visual effect of the show. We can provide multi-channel video routing to various zones of displays and TV's that can enhance any show.

At Pro Video Audio Productions our client relationships are a testament to our customer service. We continue to experience a level of repeat business that is unparalleled in the industry.
